Monthly Comparison of Balances by Fund Type
 From February 2008 through February 2010

General Fund Balances

Cash balances in the General Fund have decreased approximately \$30.5 million from the January 31, 2010 balance of \$99.4 million to the February 28, 2010 ending balance of \$68.9 million primarily due to debt service payments made during the month of February. As depicted above, cash balances usually peak during January when minimal debt service payments are made and property taxes are received. Traditionally the summer months experience a decline in the Portfolio and the General Fund balances due to large debt service payments and operational expenditures during months when no property tax revenue is received. In addition, the retirement pre-funding coincides with the annual seasonal reduction in General Fund balances. Although revenues have declined and expenditures have increased, causing a lowered General Fund balance, the City will not experience a total portfolio cash flow shortfall.

Negative Cash Balances

Cash balances in the Capital Projects funds remained above zero this month. Negative balances are caused by a time lag between when payments are made through the investment pool, and receipt of funds for the related reimbursement for these capital costs from trustees. Finance staff has been working with departments to shorten the time lag between capital project expenditures processed through the pooled investment portfolio by capital project managers and reimbursement requests.

The graph above reflects the progress as of February 28, 2010 of mitigating the impact to the investment pool through the reduction of the timing and amount of outstanding reimbursement due from bond funds.

INVESTMENT STRATEGY

The Federal Open Market Committee (FOMC) had no regularly scheduled meeting during the month of February 2010. The Federal Funds target range remained unchanged between 0.00% (zero percent) and 0.25%.

For the month of February short-term treasury yields remained near historic lows. Yields on longer dated treasuries held steady from the previous month but maintained the steepening of the yield curve indicating continued expectations of economic stabilization.

The City's investment strategy will continue to include a matching of maturities to cash flow by filling liquidity needs within the next twelve months while looking for value in these areas and keeping within the guidelines of the City's investment policy. Once the City's liquidity needs are met the increased slope of the yield curve may start to present opportunities for addition of higher yielding, longer dated US Agency securities. The Investment Program maintains its focus on its core mandate of safety, liquidity, and lastly yield.

Investment Agreements with Citigroup

Treasury staff continues to carefully monitor the City's Investment Agreements with Citigroup for Phase 1 of the Airport Development Program. As of February 28, 2010, the aggregate balance of the agreements was \$297,200,239 and the outstanding balances of the agreements were collateralized by U.S. Treasury securities at 107% and Federal Agency securities at 108%. As noted in the staff report dated April 13, 2009, the collateral is held by the City's bond trustee with the City designated as the beneficiary. Citigroup's long-term ratings did not change during the month of February 2010 and remain A3/A/A+ from Moody's/S&P/Fitch, respectively. The U.S. Treasury continues to hold a 34% ownership stake in Citigroup as a result of converting \$25 billion of preferred shares into common shares on July 24, 2009 although the U.S. Treasury has announced intentions to sell the entire ownership stake over a 12-month period beginning in the first half of 2010.

PORTFOLIO PERFORMANCE

Comparison of Portfolio Investment Earnings to FY 2009-10 Budget

The following is a comparison of actual investment earnings on an accrual basis to the fiscal year 2009-10 budget. The City's Adopted Budget for the General Fund's projected total investment income earnings is \$3.708 million for the current fiscal year. On February 9, 2010, Council approved a reduction to the General Fund interest earnings estimate bringing it down to \$1.658 million for the current fiscal year.

Monthly budgeted earnings apportionments for the City funds are based upon historical cash balance averages and an assumed average interest rate yield for the fiscal year. The following schedule reflects the actual net investment earnings (unaudited) for the General Fund participating in Investment Portfolio Fund 1 as of February 28, 2010 compared to the adopted and mid-year adjusted budget projections.

BUDGET COMPARISON		
<u>Net Investment Earnings</u>	<u>Yield</u>	<u>General Fund</u>

<i>(a) Reflects the FY 09/10 adopted budget as approved by the Council and mid-year adjustment approved by Council on February 9, 2010.</i>		
<i>(b) Reflects net investment yield which is calculated based on the earned interest yield less costs to administer the investment program and adjustment for funds with negative cash balances at month end.</i>		

Yield and Maturity Trend

The following graph provides the historical monthly weighted average days to maturity of the portfolio for each month for the past two years (bar graph) along with the yield trend in Portfolio 1 (line graph).

Benchmark Comparison

The following graph compares the earned interest yield of the City’s Portfolio Fund 1 with the monthly average yields for the same period of the State of California Local Agency Investment Fund (LAIF) and of the two-year U.S. Government Agency securities from February 2008 through February 2010. The City’s Total Portfolio is not used for benchmarking comparisons since it includes various funds, which are required to be invested apart from the pool and have their own separate cash flow needs.

**Portfolio Fund 1
 Monthly Benchmark Comparisons
 From February 2008 through February 2010**

The two-year US Government Agency securities and the Local Agency Investment Fund (LAIF) historically are the closest suitable benchmarks for the City’s Portfolio Fund 1. The weighted Average Days to Maturity (ADM) for the portfolio is 195 days. The yield on LAIF increased slightly and the two-year agencies decreased slightly during the month of February. Both benchmarks remained below the City’s Portfolio Fund 1 yield which declined to 1.93%.

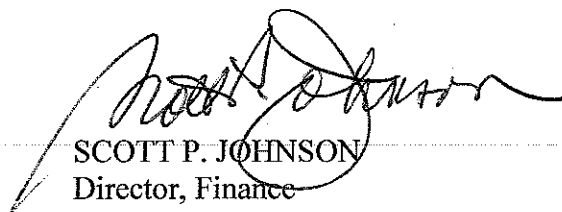

During the month of February 2010, LAIF’s average days-to-maturity (ADM) was 200 days versus the City’s Portfolio Fund 1’s 195 days. Since the shorter end of the yield curve produces lower interest rates, LAIF’s shorter average life will continue to cause their yield to decline more rapidly. However, LAIF and their yield performance will be able to react more quickly when interest rates begin to rise. With the shift in the City’s investment strategy to invest in securities with maturities eighteen months or less (due to cash flow needs), the portfolio has experienced a decline in ADM close to LAIF’s. This strategy will also allow the City to react more quickly when interest rates increase, as cash flows permit, resulting in more favorable yield performance.

Attached to this report are the following reports, providing more detailed information on the portfolio statistics as of February 28, 2010:

- Investment Inventory with Market Value, showing classifications of investments by issuer, maturity date, par amount and dollar amount invested.
- Purchase activity with each investment broker during the month of February.
- Earnings associated with investment held during the month of February.

COMPLIANCE REPORTING REQUIREMENTS

There were no exceptions or violations outstanding for the month ended February 28, 2010. The investment portfolio meets the requirements of the City's Investment Policy and the California Government Code section 53601.
