PORTFOLIO STATISTICS

The City's Investment Policy outlines the information contained in the Portfolio Statistical section of the Quarterly Investment Report. Detailed information is found in the attachments to the Quarterly Report (see table of contents), while summaries in graphic form are provided in this transmittal letter.

Portfolio Composition

The graphs below provide snapshots of the City's total investment portfolio as of March 31, 2010. The total portfolio size was \$900,434,218. The first graph shows the portfolio composition by investment type and the following two graphs show the portfolio's cash balance by security type.

The graph below reflects the reconciliation of total balances reported by the investment program's investment accounting system compared to the City's Financial Management System (FMS).

Cash Balances by Fund Type
As of March 31, 2010
\$908,400,318

Total Cash Balances per FMS	\$908,400,318
Deposit-in-Transit, Outstanding Checks ¹	<u>(\$7,966,100)</u>
Portfolio Balance Total	\$900,434,218

¹ Reflects timing differences between when deposits are made and accounting for proceeds in FMS, or when checks are written and not yet cashed by the receiving party.

The following graph compares the monthly total balances of selected City funds as reported by the City's Financial Management System (FMS).

General Fund Balances

Cash balances in the General Fund have increased approximately \$26 million from the December 31, 2009 balance of \$48 million, to the March 31, 2010 ending balance of \$74 million. As depicted above, cash balances usually peak during January when minimal debt service payments are made and property taxes are received. Traditionally the summer months experience a decline in the Portfolio and the General Fund balances due to large debt service payments and operational expenditures during months when no property tax revenue is received. It should be noted as illustrated on the graph above, the General Fund has experienced a structural change in cash balances. This structural cash balance shift is due to two factors; reduced revenues and use of General Fund reserves. Although revenues have declined and expenditures have increased, causing a lowered General Fund balance, the City's total portfolio will not experience a total portfolio cash flow shortfall.

Prefunding Annual Retirement Contributions and Issuance of Short-term Notes

The City's recent practice of pre-funding the City's employer retirement contribution coincides with the annual seasonal reduction in General Fund cash balances. On August 1, 2008, the City made its first prepayment of employer retirement contributions in order to recognize General Fund budgetary savings. The City Manager's Proposed 2010-11 Budget anticipates the continuation of prepaying employer retirement contributions, resulting in General Fund

budgetary savings estimated at approximately \$4.4 million for fiscal year 2010-2011. The total prepayment is estimated to be 198 million of which the General Fund's prepayment portion is anticipated to be approximately \$140 million.

Finance staff has prepared a preliminary analysis of fiscal year 2010-2011 General Fund estimated cash flows to determine the impact an annual prepayment of employer retirement contributions would have on the General Fund's position. Based on this analysis, staff has determined that if the prepayment is made in July 2010, the cyclical nature of General Fund cash flows may cause a temporary negative General Fund cash balance in the first half of fiscal year 2010-2011. To ensure that the General fund cash balance remains positive throughout fiscal year 2010-2011 and to provide sufficient funding for the prepayment, staff is establishing short-term financing options so that the City can borrow for cash flow purposes and still achieve the budgetary savings associated with prefunding the employer retirement contributions.

The proposed financing is in the form of Tax Anticipation Notes (TANs) as authorized under the California Government Code and security for repayment of the Notes will be provided by a pledge of the City's property tax revenues received plus other available General Fund revenues of the City, if required. On April 30, 2010, the City received 5 proposals from financial institutions due to a competitive request for proposal process initiated by the Finance Department. On May 4, 2010, JPMorgan Chase was selected for the TAN private placement. Staff will be negotiating a Note Purchase Agreement with JPMorgan and anticipates Council action on June 15, 2010 for approval of the Note Purchase Agreement.

Negative Cash Balances

Cash balances in the Capital Projects funds remained above zero this month. Negative balances are caused by a time lag between when payments are made through the investment pool, and receipt of funds for the related reimbursement for these capital costs from trustees. Finance staff has been working with departments to shorten the time lag between capital project expenditures processed through the pooled investment portfolio by capital project managers and reimbursement requests.

Redevelopment Agency Portion of Portfolio

As of March 31, 2010, the Redevelopment Agency portion of the total portfolio was \$43 million (this excludes \$23,076,029 of Redevelopment bond proceeds held by the Agency's Trustee), which represents a decrease of \$14.7 million compared to the amount reported as of December 31, 2009. Total interest earnings from funds invested with the City Pool during the quarter ended December 31, 2009 for the Redevelopment Agency were \$102,000¹ inclusive of the earnings on the LAIF accounts established for the 2008B bond proceeds.

¹ Total interest earnings excludes interest earnings on bond proceeds held by the trustee.

PORTFOLIO PERFORMANCE

Portfolio performance is provided in more detail in the attachments to the report. The summary information provided below includes the total portfolio income recognized for the last quarter as compared to the prior quarter and the same quarter one year ago. Other graphs in this section include yield and maturity trends over the last two years and comparisons of weighted average yields on new purchases.

Yield and Maturity Trend

The following graph illustrates the historical monthly dollar-weighted average days to maturity of Portfolio 1 for each month for the past two years (bar graph) along with the yield trend in Portfolio 1 (line graph). The average days to maturity has declined from the quarter ended December 31, 2009 at 252 to the quarter ended March 31, 2010 at 180.

Benchmark Comparison

The following graph compares the earned interest yield of the City’s Portfolio Fund 1 with the monthly average yields for the same period of the State of California Local Agency Investment Fund (LAIF) and of the two-year U.S. Government Agency securities from March 2008 through March 2010. The City’s Total Portfolio is not used for benchmarking comparisons since it includes various funds, which are required to be invested apart from the pool and have their own separate cash flow needs.

Monthly Benchmark Comparisons
 As of March 31, 2010

The two-year US Government Agency securities and the Local Agency Investment Fund (LAIF) historically are the closest suitable benchmarks for the City’s Portfolio Fund 1. The weighted Average Days to Maturity (ADM) for the portfolio is 180 days. The yield on LAIF continued to decrease during the quarter ended March 31, 2010, while the yield on two-year agencies increased. Both benchmarks remained below the City’s portfolio yield of 1.89%.

During the month of March 2010, LAIF’s average days-to-maturity (ADM) was 213 days versus the City’s Portfolio Fund 1’s 180 days. Since the shorter end of the yield curve produces lower interest rates, LAIF’s and the City’s short average life will continue to cause the portfolio’s yields to decline more rapidly. However, LAIF and the City’s yield performance will be able to react more quickly when short-term interest rates begin to rise. With the shift in the City’s investment strategy to invest in securities with maturities eighteen months or less (due to cash flow needs), the portfolio will continue to experience a decline in ADM. This strategy will allow the City to react more quickly when interest rates increase, as cash flows permit, resulting in more favorable yield performance.

Unrealized Losses and Gains

As shown in the Investment Summary Table on page 1 of this report, the total portfolio size as of March 31, 2010 was \$900 million. The following table illustrates the net unrealized gains or losses on the portfolio when comparing the portfolio’s market value to both its original cost and amortized cost.

<u>UNREALIZED GAINS & LOSSES</u>			
<u>Cash Basis</u>			
Market Value	\$907,531,026	Market Value	\$907,531,026
Original Cost	(900,434,218)	Amortized Cost	(901,324,971)
Net Unrealized Gain (Loss)	\$ 7,096,808	Net Unrealized Gain (Loss)	\$ 6,206,055

The City’s investment practice, per the Investment Policy, is generally to hold securities to the maturity dates, with exceptions as noted in the Policy. The net unrealized gains noted above are “paper gains” where there is an inverse relationship between the general changes in market interest rates to the value of investment securities. As the general market interest rates decrease, the value of the City’s investments increase as a result of the higher interest yields that these investments hold compared to market interest rates.

Earned Interest Yield – The total investment portfolio earned interest yield for the quarter ended March 31, 2010 was 1.84%. The yield decreased from 2.29% from the quarter ended December 31, 2009. The Federal Funds target range remained unchanged between 0.00% (zero percent) and 0.25%. In the Federal Open Market Committee (FOMC) statement released on March 16, it was noted that, “*economic activity has continued to strengthen and that the labor market is stabilizing. Household spending is expanding at a moderate rate but remains constrained by high unemployment, modest income growth, lower housing wealth, and tight credit.*” In addition, it was noted again that, “*the Committee will maintain the target range for the federal funds rate at 0 to 1/4 percent and continues to anticipate that economic conditions, including low rates of resource utilization, subdued inflation trends, and stable inflation expectations, are likely to warrant exceptionally low levels of the federal funds rate for an extended period.*”

Performance Measurement – New Purchases verses Fed Funds Rate – The following graph compares the total portfolio’s weighted average yield on new purchases made during each month over the past two years to the average monthly federal funds rate for the same period. Funds on deposit in a bank’s reserve account are referred to as federal funds, and the rate of interest paid on overnight loans of federal funds is called the federal funds rate. This is the rate at which all money market interest rates are anchored.

Performance Measurement – New Purchases vs. Fed Funds
March 2008 through March 2010

COMPLIANCE REPORTING REQUIREMENTS

As part of the reporting process as outlined in the Investment Policy, there are several compliance reporting requirements that are to be included in the quarterly report. These requirements include a statement of the cash management projection, statement of compliance with the policy, and comparisons of budget investment earnings to actual investment earnings.

Cash Management Projection

Based on the Finance Department's cash flow projection as of March 31, 2010, total investment maturities and revenues for the next six months are anticipated to be \$854 million. This is sufficient to cover the projected City expenditures during the next six months of approximately \$705 million

Statement of Compliance with the Policy

There were no exceptions or violations outstanding for the quarter ended March 31, 2010. The investment portfolio during the quarter ended March 31, 2010 meets the requirements of the City's Investment Policy and the California Government Code section 53601.

Comparison of Portfolio Investment Earnings to FY 2009-10 Budget

The following is a comparison of actual investment earnings on an accrual basis to the fiscal year 2009-10 budget. The City's Adopted Budget for the General Fund's projected total investment income earnings is \$3.708 million for the current fiscal year. However, on February 9, 2010, Council approved staff's recommendation to reduce the General Fund interest earnings estimate bringing it down to \$1.658 million for the current fiscal year. This revision to the General Fund projected investment earnings was due to two factors; 1) the continuing decline in market interest rates; and 2) the structural reduction in General Fund cash balances due to the recent budget actions to use some reserves as a balancing strategy and the reduction in revenues as a result of the economic downturn.

Monthly budgeted earnings apportionments for the City funds are based upon historical cash balance averages and an assumed average interest rate yield for the fiscal year. The following schedule reflects the actual net investment earnings (unaudited) for the General Fund participating in Investment Portfolio Fund 1 as of March 31, 2010 compared to the adopted budget projections.

BUDGET COMPARISON		
<u>Net Investment Earnings</u>	<u>Yield</u>	<u>General Fund</u>
<i>March 2010</i>

Actual ^(b)	<u>1.26%</u>	<u>69,235</u>

Variance ^(c)	(.18%)	(362,010)

(a) Reflects the FY 09/10 adopted budget as approved by the Council and mid-year adjustment approved by Council on February 9, 2010.
(b) Reflects net investment yield which is calculated based on the earned interest yield less costs to administer the investment program and adjustment for funds with negative cash balances at month end.
(c) Yield on Investments, as well as average General Fund balance declining below 09/10 projections causing a decline in actual Net Investment Earnings, which is expected to continue through June 30, 2010.

INVESTMENT TRADING ACTIVITY

Attachment E provides a detailed summary of the Investment Activities during the quarter including any realized gains or losses from interest received on trading activity. Since the City is currently not involved in active trading, this reporting only occurs when a security must be sold prior to maturity as defined in Section 4.0(B) of the Investment Policy.

INVESTMENT STRATEGY

For the month of March short-term treasury yields continued their decline to near historic lows. Yields on longer dated treasuries were slightly higher from the previous quarter causing further steepening of the yield curve indicating continued expectations of economic stabilization.

The City's investment strategy will continue to include a matching of maturities to cash flow by filling liquidity needs within the next twelve to eighteen months while looking for value in these areas and keeping within the guidelines of the City's investment policy. Once the City's liquidity needs are met the increased slope of the yield curve may start to present opportunities for addition of higher yielding, longer dated US Agency securities. The investment program maintains its focus on its core mandate of safety, liquidity, and lastly yield.

Implementation of Social Responsibility – Foreclosure mitigation criteria

On December 8, 2009, the City Council authorized revisions to the City's Investment Policy to include a new section 16.0, "Social Responsibility – Foreclosure Mitigation". The revision to the City's Investment Policy added a financial institution's commitment to foreclosure mitigation as one of several criteria used when evaluating which financial institutions the City of San José would use for short term investments. The criteria of foreclosure mitigation is to be considered only after the Investment Program's primary objectives of safety, liquidity and yield. However, to the extent that competing financial institutions offer investment vehicles that are similar in nature and yield, their level of participation in the Federal Home Affordability Modification Program (HAMP) will be used as criteria. In the Making Home Affordable initiative, the Obama Administration has committed \$75 billion to the Home Affordable Modification Program (HAMP) which encourages mortgage servicers to modify eligible loans that are 60-plus days delinquent. HAMP publishes a national report that tracks performance based on the number of potentially eligible loans who might qualify for a loan modification.

During the month of January 2010, the Investment Program began implementation of the new Investment Policy criteria with the addition of JPMorgan Chase & Co. (JPM) commercial paper program to the City's list of approved commercial paper (CP) issuers. This approval was based on JPM's commercial paper program's ability to meet, or exceed, the City's Investment Policy requirements and JPM's relative strength in the financial services sector. The addition of JPM in conjunction with the previously approved financial services industry CP issuers Bank of America and Wells Fargo Bank provided the Investment Program access to the short-term investments of the top three mortgage servicers in the San Jose area. As of February 2010, the most recently released HAMP program statistics reported that JPMorgan had 39% active modifications as a share of their estimated eligible 60+ day delinquencies, Wells Fargo Bank 37% active modifications, and Bank of America 24% active modifications. .

In addition to using the policy change in making investment decisions, staff has reduced the volume of securities purchased through the Bank of America broker/dealer. This change is evidenced by the distribution of aggregate dollar volumes attributed to respective broker dealers.

For the month of January the City placed investments through Bank of America totaling approximately \$408 million, which included the purchase of overnight Bank of America Commercial Paper, as well as other approved investment instruments such as U.S. Government Agency issues. However, through implementation of the new policy directive, when prudent, the investment activity through Bank of America declined during the month of March to \$116 million, and is recently down to \$10 million during the month of April.

The City's Investment Staff continues to keep the objective of Social Responsibility in relation to foreclosure mitigation in mind when investing City funds while following all guidelines provided in the Investment Policy as well as the California State Government Code.

Investment Agreements with Citigroup

As requested by the City Council at its May 5, 2009 meeting, staff is providing monthly updates on the status of the City's Investment Agreements (IA) with Citigroup. Treasury staff continues to carefully monitor the City's Investment Agreements with Citigroup for Phase 1 of the Airport Development Program. As of March 31, 2010, the aggregate balance of the agreements was \$272,616,695 and the outstanding balances of the agreements were collateralized by U.S. Treasury securities at 107% and Federal Agency securities at 108%. As noted in the staff report dated April 13, 2009, the collateral is held by the City's bond trustee with the City designated as the beneficiary. Citigroup's long-term ratings did not change during the month of March 2010 and remain A3/A/A+ from Moody's/S&P/Fitch, respectively. The U.S. Treasury holds a 34% ownership stake in Citigroup as a result of converting \$25 billion of preferred shares into common shares on July 24, 2009. On March 29, 2010, the U.S. Treasury announced its plan to liquidate "its approximately 7.7 billion shares of Citigroup, Inc. common stock over the course of 2010 subject to market conditions." Furthermore, the U.S. Treasury "intends to sell its Citigroup common shares into the market through various means in an orderly and measured fashion."

Future Commitments -- As of quarter-end March 31, 2010, the City had no obligations to buy or sell securities, no outstanding debt to security brokers, and no commitments to participate in securities trading.

Executed Reverse Repurchase Agreements -- No reverse repurchase agreements were executed this quarter.

Restructuring-- No restructuring transactions were executed during the quarter ended March 31, 2010.

Municipal Bonds -- No municipal bonds were purchased during the quarter ended March 31, 2010.

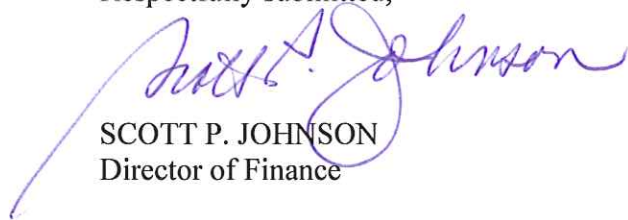

SIGNIFICANT DEVELOPMENTS

No significant developments to report during the quarter ended March 31, 2010.

CONCLUSION

The total investment portfolio as of March 31, 2010 was \$900,434,218. This is an increase of approximately \$80 million from December 31, 2009, primarily due to the receipts of property tax revenues for the General Fund and Redevelopment Agency. For the quarter ended March 31, 2010, the total portfolio earned interest yield was 1.84%, a decrease from 2.29% reported for the quarter ended December 31, 2009, reflecting the reinvestment in a lower interest rate environment and of maturing securities purchased in periods of higher interest rates. The weighted average days to maturity declined during the quarter ended March 31, 2010 to 176 days. As of March 31, 2010, approximately 65% of the total portfolio consisted of U.S. Government Agency securities.

Respectfully submitted,

Director of Finance

SECTION B

EARNED INTEREST SUMMARY

The Earned Interest Summary summarizes portfolio investment activity, cash interest receipts, and accrual-based earnings for all investments active during any part of the report period. Types of investments are described as follows:

TIME DEPOSITS: A deposit with a California bank or savings and loan association for a specific amount and with a specific maturity date and interest rate. Deposits of up to \$100,000 are insured by FDIC or FSLIC. Deposits over \$100,000 are collateralized above the insurance with either government securities (at 110% of par value), first trust deeds (at 150% of par value), or letters of credit (at 105% of par value).

GOVERNMENT SECURITIES: An issue of the U.S. Treasury. May include U.S.T. Bills (up to 1 year maturity), U.S.T. Notes (maturity of up to 10 years), and U.S.T. Bonds (maturity of longer than 10 years from date of issue). “Stripped Coupons” are coupons that have been physically separated from the original bond before being sold. The purchaser of the coupons in effect is buying the interest that will be paid on the underlying bond on a certain date.

FEDERAL AGENCIES: Any issue of various Federal Agencies, such as Federal National Mortgage Association, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal Farm Credit Banks, Government National Mortgage Association, and Student Loan Marketing Association.

MEDIUM-TERM NOTES (MTNs): Continuously offered notes, having any or all of the features of corporate bonds and ranging in maturity from nine months out to 30 years. The difference between corporate bonds and MTNs is that corporate bonds are underwritten.

REPURCHASE AGREEMENTS: A holder of securities (e.g. a “dealer”) sells the securities to an investor (e.g. the City) with an agreement to repurchase the securities at a fixed price on a fixed date.

REVERSE REPURCHASE AGREEMENTS: A dealer buys securities from a client (e.g. the City) with an agreement to sell them back to the client at a fixed price on a fixed date.

MONEY MARKET INSTRUMENTS: Negotiable Certificates of Deposit, Commercial Paper and Banker’s Acceptances. Negotiable Certificates of Deposit are large denomination certificates of deposit with a fixed maturity date which can be sold in the money market. They are not collateralized. Commercial Paper is an unsecured promissory note issued by a corporation. It has a fixed maturity (may not be more than 270 days) and is usually sold in discount form. Banker’s Acceptances are drafts or bills of exchange accepted by a bank or trust company evidencing a loan created by the accepting bank. The accepting institution guarantees payment of the bill.

LOCAL AGENCY INVESTMENT FUND: An investment pool managed by the State Treasurer in which local governments and agencies in California may participate.

The subtotal line for each category includes the weighted average days to maturity for that category and also what percentage of the total portfolio the individual investment category represents.

SECTION E

DETAIL OF INVESTMENT ACTIVITY

This report summarizes investment activity during the report period by type of activity rather than by type of security. The report shows all interest received during the report period, and all maturities, purchases and sales. The report also shows all “paydowns” on securities on which principal is amortized rather than due at maturity (e.g. Federal Home Loan Mortgage Corporation securities).

The last part of the report shows the number of transactions placed with each dealer and includes the total dollar amount of transactions per dealer.
